Error: Unable to enter Recovery Mode from DFU Mode Error: Unable to detect the iDevice type.. Error: Unable to restore iDevice(-1) Nov 29, 2019 3uTools-Forum Welcome to 3uTools forum.. Please check if your USB cable and computer's USB port can work normally Because in the process of using 3uTools, the abnormal connection may also cause the connection failure.

Except for abnormal USB cable, there are other reasons One of the reason is the lack of a hardware driver, which means when I first connect iPhone 6, my PC does not automatically install the driver.. Here you can find all information about iOS and 3uTools This is the exact message i am getting Error: Unable to restore iDevice(-2).. B) iTunes driver hasn't been installed on the computer Solutions: 1 Check the connection between iDevice and PC.. Most of the users have more than one iOS devices But when they launch 3uTools, they find out not all their iOS devices can connect to 3uTools.
